Initially, the 320i's engine was a fuel-injected version of the same 2.0L four that had powered the 2002 series for years. The fuel-injection system, the mechanical Bosch K-Jetronic system, is a continuous-injection system, rather than a pulsed system; it put out 110 horsepower (105 in California), 112-lbs.ft. of torque, and ran so cleanly that it didn't require a catalytic converter.
