Chemical Engineering - UCLA CCLE

Mechanical and Civil Engineers shape our physical environment from the cities we live in, the machines we use, the way we travel, the energy that powers these to delivering the water we need. Our research addresses fundamental issues that represent roadblocks in critical technologies towards engineering our physical environment.

Caltech Mechanical and Civil Engineering

The class lectures and team projects stress the integration of mechanical design, electronics, mechatronics, engineering analysis, and computation to solve problems in engineering system design. Critical feedback is provided through a series of formal design reviews scheduled throughout the ME 72 ab course sequence.
