Fuel Consumption - Department of the Environment

Datasets provide model-specific fuel consumption ratings and estimated carbon dioxide emissions for new light-duty vehicles for retail sale in Canada. To help you compare vehicles from different model years, the fuel consumption ratings for 1995 to 2014 vehicles have been adjusted to reflect the improved testing that is more representative of everyday driving.

Fuel consumption ratings - Open Government Portal

Use this tool to help identify the most fuel-efficient vehicle that meets your everyday needs by comparing the fuel consumption information of different models. Print the Fuel Consumption Guide. Download fuel consumption ratings datasets. Note: An issue has been detected in the U.S. with select diesel vehicles.

Fuel consumption ratings search tool

For example, in Table C3, the figure in the column "Sum of Major Fuel Consumption per Square Foot" and the row "Fuel Oil" should be interpreted: "Buildings that used fuel oil for any purpose consumed an average 116,100 Btu of total fuels per square foot in 2003." (It should NOT be interpreted as the consumption specifically of fuel oil.)

Commercial Buildings Energy Consumption Survey (CBECS)

Please Note that this information is not exhaustive, and some makes and models may be missing. The data is derived from official tests, but may not accurately resemble what your vehicle is

capable of in day to day use. The data used here was last updated in May 2007, and is available in a raw format at the VCA car fuel data website.

What is my car's MPG? » Fuel-Economy.co.uk

The fuel consumption and CO 2 figures listed on the label are also displayed on the Green Vehicle Guide. The Guide also includes a calculator enabling consumers to calculate annual fuel consumption costs and CO 2 emissions. Since April 2009, an improved fuel consumption label has been required on showroom vehicles.

Fuel consumption label | Green Vehicle Guide

Fuel efficiency measurements The first (and most common) reference is litres per 100km (litres/100km). This is how many litres of fuel the car needs in order to travel 100km. You'll often see it referred to as 'fuel economy'. Rule of thumb on this one: the lower the number of litres stated, the better the fuel economy.

Fuel efficiency explained | CarsGuide

EPA gas mileage, safety, air pollution, and greenhouse gas estimates for new and used cars and trucks. Improve the MPG of your vehicle with our gas mileage tips.
