Insurance Process Flow Manual

It explains how to confirm that appropriate insurance coverage exists, what to do to report an incident and make a claim, and it also describes each step in the claims process by use of Flow Charts and descriptions. It includes weblinks to policy summaries, definitions of commonly used words, terms and abbreviations, and to approved forms.

INSURANCE MANAGEMENT PROCEDURE

How Workflows Can be Used to Improve Insurance Operations. Insurance process models (you may hear them called workflows or flow charts) lay out each work step in a specific process to identify improvement to employee productivity, customer experience and/or risk management. Certain insurance processes can be complex, and steps for the same process (e.g., claims processing) vary based on the insurance product.
