Making a Baby : a Social Investigation of Assisted ...

A Vision of Making Babies First, I think it is easy to imagine a world 100 years from now in which parents have much more control over the inheritance of children. Gene therapy and pre-implantation diagnosis for 6-8 cell embryos will be thoroughly assimilated into obstetrics technologies.

Ethical Issues in Genetics | Bioethics.net

The rapidity by which the baby-making process has evolved has outpaced our moral reflection. While I lack the knowledge and wisdom to provide much guidance, there are few considerations, ranging from the personal to the linguistic, which I believe should guide our thinking about reproductive technologies. The first is the duty to our neighbor.
